Progression Inc.'s Quality Program Formally Recognized with HSB Certificate

Haverhill, MA (April 3, 2008)—Progression, Inc. announced today that it has been awarded a Certificate of Achievement for the successful Quality Program Audit. The audit performed by The Hartford Steam Boiler Inspection and Insurance Company of Connecticut was based on the requirements of CSA-B51-03. This achievement recognizes the manufacturing, engineering and test programs for all standard product lines at Progression.

“Our commitment to safety and quality has always been of primary importance for our staff,” stated Mike Pepe, Project Manager at Progression, Inc. “We take great pride in having that focus be recognized by an accredited international organization such as The Hartford Steam Boiler Inspection and Insurance Company.”

The world class manufacturing quality and flexibility at Progression enables a broad range of customized products to be supplied cost effectively to customers around the world.

About Progression, Inc.

Progression, Inc. (www.progression-systems.com) has an extensive background in the development and implementation of process NMR and holds a broad intellectual property portfolio in its use and application. In addition, the company provides LIBS instrumentation, custom sampling systems, two-phase mass flow monitors and electrostatic charge measurement devices for monitoring unique applications within the chemical, energy and mining industries. The world's best polyolefin manufacturers rely upon Progression products to improve process efficiency and product consistency.

International business accounts for more than 60 percent of privately held Progression's overall revenues. Strong service and distribution in overseas markets including Europe, Asia, and the Middle East continue to provide exceptional expansion and growth opportunities for Progression.
