Progression Appoints Korean Agent

HAVERHILL, MA (September 6, 2008)—Progression, Inc., the world’s leading provider of industrial Nuclear Magnetic Resonance (NMR) and Laser Induced Breakdown Spectroscopy (LIBS) analyzers for use in the polymer industry, power generation, and the mining industry announced its partnership with Korea I.T.S. Co. (KITS) in Seoul, Korea.

Over the last several years, Progression has achieved substantial success in East Asia with its NMR, LIBS and Correflow technologies. Now, to enhance those efforts and take advantage of the growing commercial market opportunity in Korea, progression is pleased to announce the addition of KITS as its exclusive Korean representative. With multiple office locations located throughout Korea, KITS efficiently serves key sectors of Korean business.

Scott Marino, President of Progression, Inc. noted, “Progression is thrilled to be working with the capable and dedicated team from KITS. We are very excited to continue our business expansion in Korea with their help.”

About KITS

KITS has supplied over 400 businesses and laboratories with high-tech analyzers. They bring significant experience in the distribution and service of advanced analytical instrumentation. The portfolio of global companies they work with have benefited significantly from their experience.

About Progression, Inc.

Progression, Inc. (www.progression-systems.com) has an extensive background in the development and implementation of process NMR and holds a broad intellectual property portfolio in its use and application. In addition, the company provides process LIBS instrumentation, custom sampling systems, two-phase mass flow monitors and electrostatic charge measurement devices for monitoring unique applications within the chemical, energy and mining industries.

International business accounts for more than 60 percent of Progression’s privately held overall revenues. Strong service and distribution in overseas markets including Europe, Asia, and the Middle East continue to provide exceptional expansion and growth opportunities for Progression.
